

Webinar

Medical Devices Quality Management Systems (MDQMS) and Indian Certification for Medical Devices (ICMED) Scheme

Date:
29th January 2021
(11 AM – 1 PM)

Programme Learning Objectives

The purpose of the programme is to create awareness on the benefits of using ISO/IEC 17021-1 accredited certification bodies for Medical Devices Quality Management Systems Certification Programme (MDQMS) based on ISO 13485 and Indian Certification for Medical device (ICMED) scheme.

The programme will also provide insight into the process used for seeking NABCB accreditation along with requirements of ISO/IEC 17021-1 and applicable IAF Mandatory documents .

Target Audience :

- Certification Bodies who are accredited/ not accredited by NABCB
- Medical Device manufacturing industries
- Regulatory bodies, Government organisations, Public sector Undertakings or anyone desiring to understand about accreditation and its benefits

Outcome :

- Benefits of NABCB accreditation
- Enhanced understanding of NABCB accreditation process
- Enhanced understanding with respect to Standards and regulatory frameworks
