# ABOUT NABCB

The **National Accreditation Board for Certification Bodies (NABCB)**, a constituent Board of the Quality Council of India (QCI), plays a central role in strengthening India's quality infrastructure by ensuring that conformity assessment bodies operate with competence, impartiality, and global credibility. NABCB provides accreditation to certification bodies, inspection bodies, and validation & verification bodies, evaluating them through a rigorous process based on internationally accepted standards and guidelines. These assessments include documentation review, on-site assessments, and ongoing surveillance to ensure Independence and Reliability.

NABCB's work directly contributes to enhancing trust in certified products, processes, and services, supporting regulators, industries, and consumers across various sectors. Its accreditation programs align with global best practices, enabling accredited bodies to demonstrate consistent performance and technical competence in the services they deliver.

## Global Recognition Through MLAs/MRAs

NABCB is a signatory to multiple Multilateral and Mutual Recognition Arrangements under IAF, ILAC, and APAC. These agreements:

- Enable international acceptance of certificates and reports issued by NABCB-Accredited bodies,
- Reduce the need for repeat inspection or certification abroad,
- Support Indian exporters by reducing technical barriers to trade, and
- Enhance global confidence in India's conformity assessment outcomes.

## NABCB's International Engagements

NABCB represents India at major global Accreditation forums, including:

- International Accreditation Forum (IAF)
- International Laboratory Accreditation Cooperation (ILAC)
- Asia Pacific Accreditation Cooperation (APAC)

Participation in these bodies allows NABCB to:

- Contribute to global policy discussions,
- Stay aligned with evolving international standards, and
- Strengthen India's presence within the global quality ecosystem.

# **NABCB ACCREDITATION SCHEMES**

**NABCB offers Accreditation under a wide portfolio of schemes, including:**

- **Management Systems (ISO/IEC 17021-1:2015)**
  - ~ Quality Management Systems (ISO 9001)
    - QMS for Medical Devices (ISO 13485)
    - Educational Organizations Management Systems (ISO 21001)
    - Primary Packaging Materials (ISO 15378)
    - Indian Certification of Medical Devices (ICMED)
  - ~ FSSC 24000- Social Sustainability Management
  - ~ Environmental Management Systems (ISO 14001)
    - Sustainable Electronics Recycling International (SERI)- R2 Standards
  - ~ Occupational Health & Safety Management Systems (ISO 45001)
  - ~ Food Safety Management Systems (ISO 22000)
    - FSSC 22000
    - FAMI - QS
  - ~ Energy Management Systems (ISO 50001)
  - ~ Information Security Management Systems (ISO/IEC 27001)
  - ~ Privacy Information Management Systems (ISO/IEC 27701)
  - ~ Information Technology Service Management Systems (ISO/IEC 20000-1)
  - ~ Road Traffic Safety Management Systems (ISO 39001)
  - ~ Trustworthy Digital Repository Management Systems (ISO 16363)
  - ~ Business Continuity Management Systems (ISO 22301)
  - ~ Anti-Bribery Management Systems (ISO 37001)
  - ~ Asset Management Systems (ISO 55001)
  - ~ Facility Management Systems (ISO 41001)
  - ~ Aerospace Quality Management Systems (AS 9100 series of standards)
  - ~ Artificial Intelligence Management Systems (ISO/IEC 42001)

- **Inspection (ISO/IEC 17020:2012)**
- **Personnel Certification (ISO/IEC 17024:2012)**
- **Product Certification (ISO/IEC 17065:2012)**
  - GlobalG.A.P.
  - ISCC CORSIA for SAF
  - Brand Reputation through Compliance Global Standards (BRCGS)
  - National Programme for Organic Production (NPOP)
  - IRF Trusted Mark
  - Best Aquaculture Practices (BAP)
  - PEFC-CoC Certification Scheme
  - Global Organic Textile Standard
  - ISA Secure Scheme
  - NCCF Trees outside Forest (ToF)
  - NCCF Forest Management (FM)
  - QCI Voluntary Certification Schemes
  - Better Cotton Initiative (BCI)
- **Validation and Verification (ISO/IEC 17029:2019)**
  - Greenhouse Gases (ISO 14065)
  - Carbon Credit Trading Scheme (CCTS)
  - ICAO CORSIA
  - Verified Carbon Standard (VCS)

# GUIDANCE TO USE NABCB ACCREDITATION SYMBOL AND ILAC MRA MARK/ IAF MLA MARK

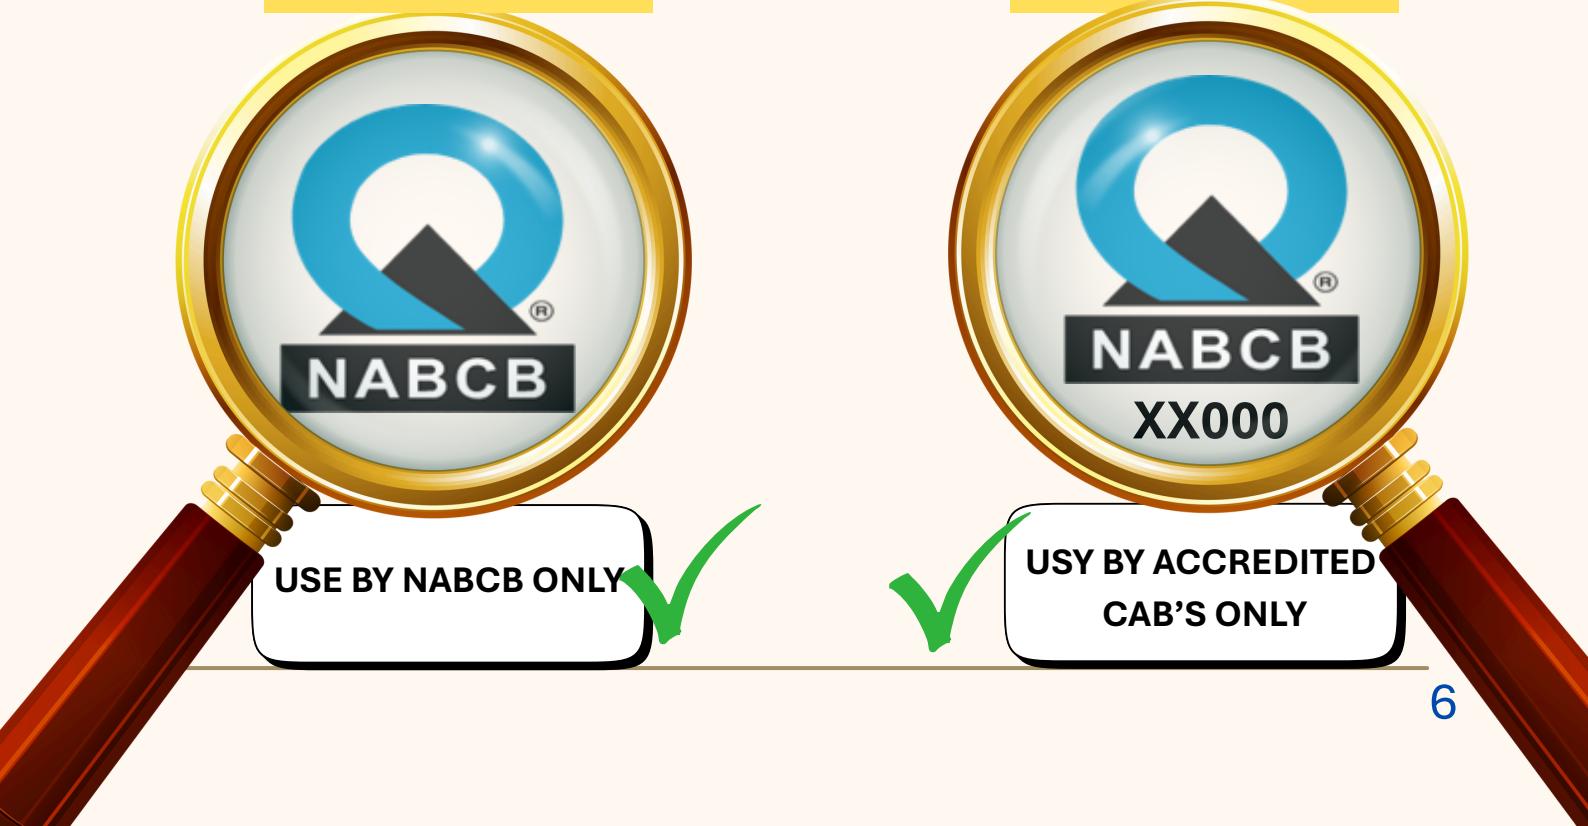

**BCB 202, Feb 2023 Specifies the Conditions for Use of NABCB Accreditation Symbol and Other Claims of Accreditation, IAF MLA Mark and ILAC MRA Mark**

The NABCB Accreditation Symbol represents credibility, competence, and international alignment. It comprises the NABCB symbol along with the unique accreditation number assigned to each accredited Conformity Assessment Body (CAB). The approved design specifications, including proportions, colour schemes, and usage format, are detailed in Appendix A (NABCB Symbol) and Appendix B (combined NABCB-IAF MLA / ILAC MRA Mark).

Accredited CABs, where permitted, may also use the Combined IAF MLA Mark (for certification and validation/verification bodies) or the ILAC MRA Mark (for inspection bodies). Use of these international marks shall comply with IAF ML 2 and ILAC R7 requirements and is subject to a formal agreement with NABCB, ensuring correct representation and alignment with international accreditation frameworks.

NABCB LOGO

NABCB SYMBOL

## Who can Use the NABCB Accreditation Symbol:

MARK/SYMBOL	NABCB	NABCB-Accredited CABs	Client Organizations of Accredited CABs
<b>NABCB Logo</b>	✓ Permitted	✗ Not Permitted	✗ Not Permitted
<b>NABCB Accreditation Symbol</b>	✓ Permitted	✓ Permitted (with accreditation number and CAB logo)	✓ Permitted only if authorized and under CAB control
<b>Combined IAF MLA / ILAC MRA Marks</b>	✓ Permitted	✓ Permitted (as applicable and under agreement)	✗ Not Permitted

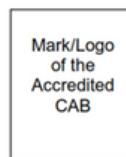

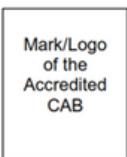

## Control and Responsibility

ASPECT	REQUIREMENT
Responsibility	The NABCB-accredited Conformity Assessment Body (CAB) is fully responsible for the correct and authorized use of the NABCB Accreditation Symbol.
Control of Client Use	Any permitted use of the NABCB Accreditation Symbol by client organizations shall be allowed only under the control and supervision of the NABCB-accredited CAB.

## NABCB UPDATES | DEC 2025

ASPECT	REQUIREMENT
Scope Limitation	The NABCB Accreditation Symbol shall be used only for accredited scopes and locations covered under the CAB's accreditation.
Prevention of Misuse	The accredited CAB shall take reasonable actions to prevent misleading, incorrect, or unauthorized use of the NABCB Accreditation Symbol by itself or its client organizations.
Corrective Action	In case of misuse, the accredited CAB shall ensure immediate corrective action, including withdrawal of authorization where required.
Non-Compliance	Failure to control or prevent misuse of the NABCB Accreditation Symbol may result in corrective action, suspension, or withdrawal of accreditation.

The accredited CAB can reproduce the NABCB Accreditation Symbol and the Combined IAF MLA or ILAC MRA Mark as applicable only in conjunction with its own logo / mark on its certificates, reports, stationery and literature associated with its accredited activities and scopes subject to the conditions specified in BCB-202.

**Permitted representation of the NABCB Accreditation Symbol used in combination with the IAF MLA Mark or the ILAC MRA Mark by accredited CABs, as applicable**

## Prohibited Use of NABCB Accreditation Symbol

AREA / MEDIUM	RESTRICTION
Products and Product Packaging	The NABCB Accreditation Symbol shall not be used on products, product packaging, labels, or any material that may imply product approval.
Management Systems Certification	The NABCB Accreditation Symbol shall not be used in any manner that suggests certification or approval of a product, process, or service.
Vehicles	The NABCB Accreditation Symbol shall not be displayed on vehicles, except as part of a large publicity advertisement.
Buildings and Flags	The NABCB Accreditation Symbol shall not be displayed on buildings or flags under any circumstances.
Visiting Cards	Use of the NABCB Accreditation Symbol on visiting cards is not permitted.
Misleading Representation	The NABCB Accreditation Symbol shall not be used in any way that misleads the reader about the accredited status of the CAB or its client organization.

## Use of IAF MLA/ILAC MRA Mark

MARK	PERMITTED USE CONDITIONS
IAF MLA Mark	The IAF MLA Mark may be used only by NABCB-accredited Certification Bodies and Validation/Verification Bodies, in combination with the NABCB Accreditation Symbol, and strictly in accordance with the terms of the agreement signed with NABCB.

◦ **NABCB UPDATES | DEC 2025**

ILAC MRA Mark	The ILAC MRA Mark may be used only by NABCB-accredited Inspection Bodies, in combination with the NABCB Accreditation Symbol, and strictly in accordance with the agreement signed with NABCB.
Use by Client Organizations	Client organizations of NABCB-accredited CABs shall not use the IAF MLA Mark or the ILAC MRA Mark under any circumstances.

### Product vs Management System Certification

CERTIFICATION TYPE	SYMBOL USAGE RULE
Management Systems Certification	Neither the Certification Body's Symbol nor the Accreditation Body's Symbol shall be used on products, packaging, or labels.
Product Certification	The Certification Body may authorize use of its own product conformity mark. Use of the NABCB Accreditation Symbol on products is not permitted.

Use of the NABCB Accreditation Symbol on products or product packaging is NOT permitted.

◦ **NABCB UPDATES | DEC 2025**

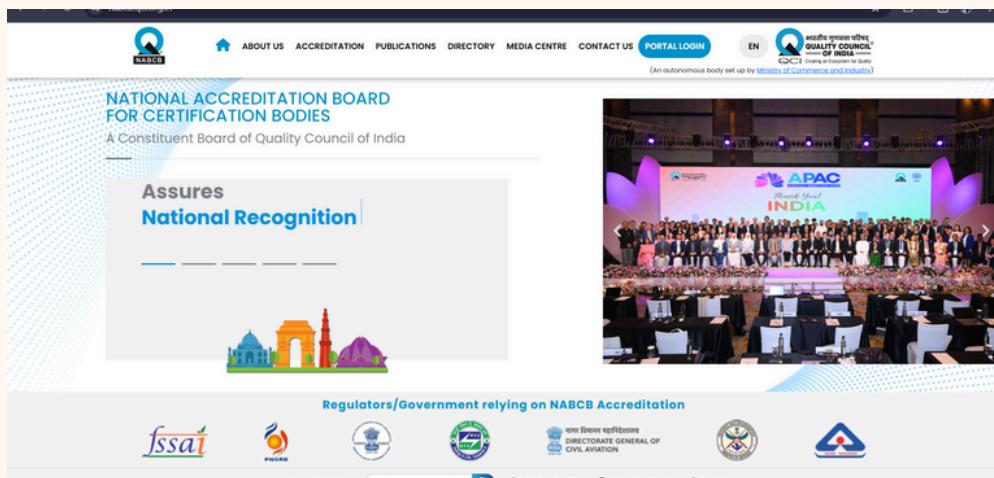

**Use of NABCB Accreditation Symbol, IAF MLA Mark, or ILAC MRA Mark on visiting cards is NOT permitted.**

### **Action on Suspension or Withdrawal**

Upon suspension or withdrawal of accreditation, the accredited CAB shall immediately discontinue the use of the NABCB Accreditation Symbol, IAF MLA Mark, and ILAC MRA Mark on all certificates, stationery, and publicity material. Use may resume only after suspension is formally revoked.

# OVERVIEW OF WEBSITE

The NABCB Website serves as a central platform for accessing accreditation-related information, resources, and services. It provides users with convenient access to accreditation schemes, directories of accredited bodies, application forms, documents, guidelines, and updates related to international cooperation. The website is designed to help applicants, accredited CABs, regulators, and stakeholders easily find relevant information and stay informed about accreditation processes and requirements.

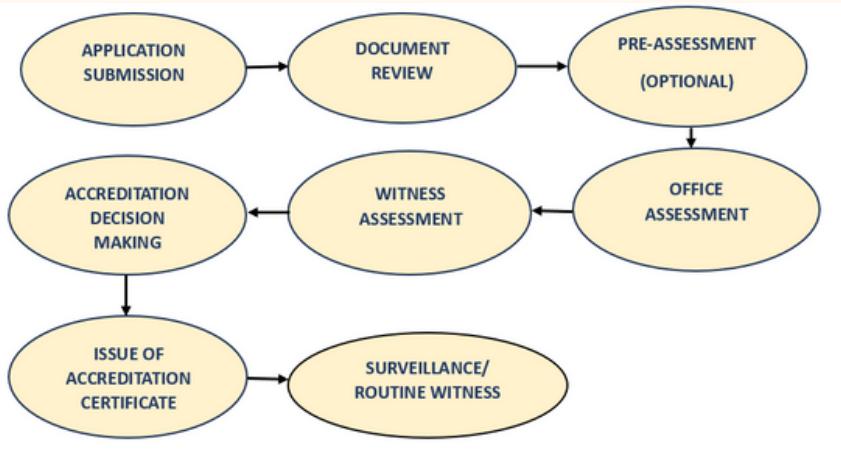

## How to Navigate NABCB Website

- **Home Page:** Start at the homepage — it gives quick links to About NABCB, Schemes, and News.
- **About Section:** Learn about NABCB's role, vision, and International recognition.
- **Schemes Tab:** Explore Accreditation schemes (management systems, products, inspection, personnel, validation/verification).
- **Scheme Documents:** Access guidelines, Application forms, Circulars, and Compliance documents.
- **News & Updates:** Check Announcements, Notifications, and Stakeholder Communications.
- **Contact Us:** Find contact details for queries and support.

# ACCREDITATION PROCESS

The NABCB accreditation process follows a structured, multi-stage evaluation framework designed to ensure that Conformity Assessment Bodies (CABs) operate competently, consistently, and impartially. The sequence of activities—from application to accreditation decision—ensures that each CAB is rigorously assessed before approval and continuously monitored throughout the Accreditation cycle.

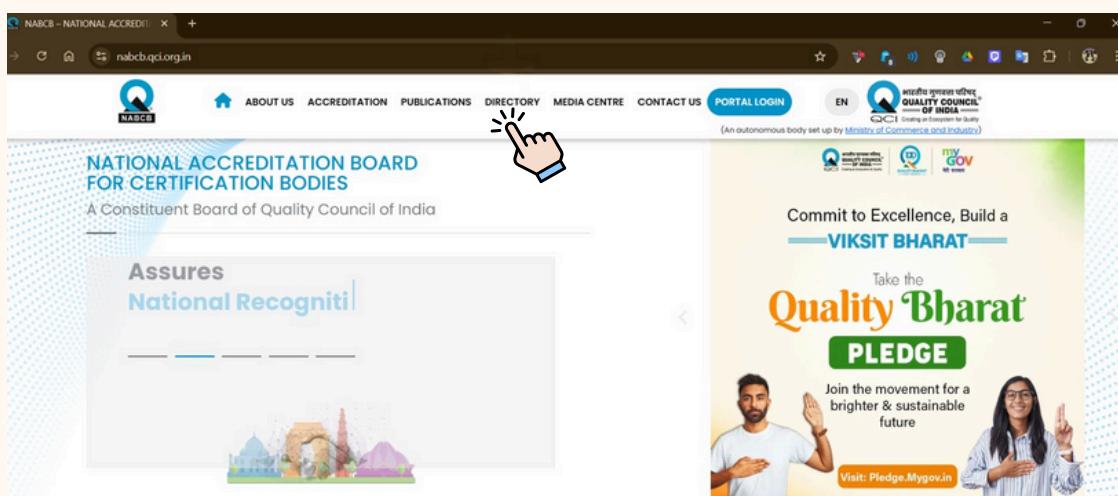

Flow chart of Accreditation Process

The entire process is conducted through NABCB's online portal, providing a streamlined, transparent, and accessible interface for applicants to submit documents, track progress, and communicate with the accreditation team.

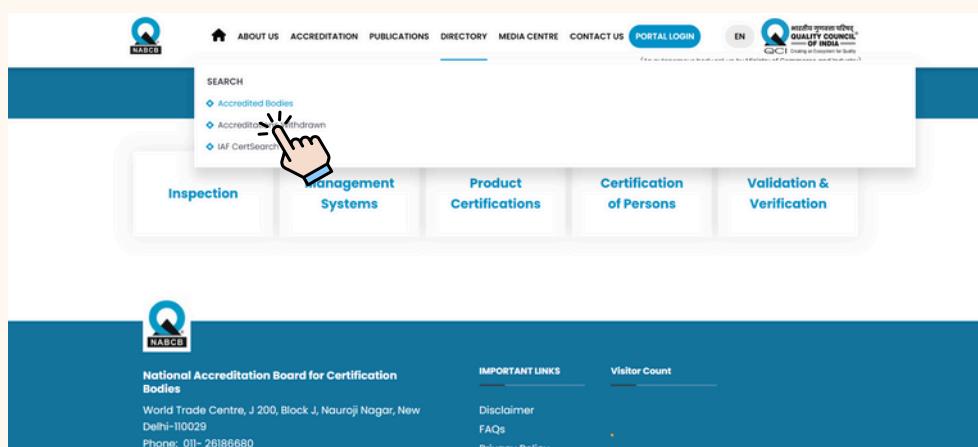

For Portal Registration: <https://nabcbportal.qci.org.in>

# SEARCHING ACCREDITED CAB

NABCB provides an Online **Directory** that allows users to easily search and verify Accredited Certification Bodies, Inspection Bodies, and Validation & Verification Bodies. This tool helps stakeholders confirm the authenticity of accredited organizations, check their scope of accreditation, and ensure that the services they engage with meet NABCB and international recognition requirements. The search system is designed to offer quick, reliable, and transparent access to accreditation information for industries, regulators, and the public.

# **NABCB STAKEHOLDERS' MEET**

NABCB convened a Stakeholders' Meeting on 8 December 2025 at Bharat Board Room QCI, bringing together key stakeholders from the conformity assessment ecosystem to discuss developments in accreditation activities, emerging requirements, and stakeholder expectations.

The meeting provided a structured platform for dialogue on accreditation-related matters, including implementation challenges, opportunities for strengthening alignment with national and international accreditation frameworks, and detailed discussions on transition policies for various standards. Inputs and feedback received from stakeholders will support the continual improvement of NABCB processes, transition management, and stakeholder engagement mechanisms.

**Participants during the NABCB Stakeholders' Meeting**

# FSSC 24000 WORKSHOP

## Strengthening Competence in Social Sustainability

As part of our continued efforts to strengthen technical competence in emerging social sustainability standards, NABCB officials attended an intensive 3-day training programme on FSSC 24000 at the Goa Institute of Management (GIM).

The workshop offered clarity on how FSSC 24000:2022 focus on labour practices, occupational health and safety, ethical business conduct, social accountability, governance, and continuous improvement through a structured PDCA framework. This learning has strengthened their technical perspective on applying and evaluating social sustainability systems in line with globally recognised certification frameworks and the expectations supported by the National Accreditation Board for Certification Bodies (NABCB).

The programme was facilitated by RRMA in collaboration with Foundation FSSC, with valuable insights shared by experts from Foundation FSSC. The learning experience at GIM further reinforced the practical integration of sustainability principles through institutional practices. This engagement marks a meaningful step toward building informed competence in FSSC 24000 for supporting robust and credible social sustainability certification initiatives.

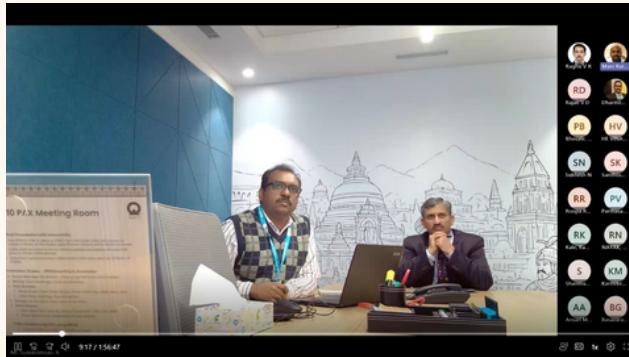

NABCB attended the FSSC 24000 training organised at GIM to enhance their technical understanding of the FSSC 24000 scheme.

# NABCB AT INDIA RMS BOARD MEETING

## India RMS Board Meeting | Aerospace Quality Management System

NABCB convened and participated in the India Regional Management Structure (RMS) Board Meeting on 28<sup>th</sup> November 2025 for the Aerospace Quality Management System (AQMS) to review the status of AQMS-accredited Certification Bodies and to engage stakeholders on key transition-related matters. The meeting brought together representatives from Certification Bodies and members of the India RMS to ensure alignment on current and upcoming AQMS requirements.

Discussions focused on transition planning for forthcoming changes in aerospace standards, implementation of ICOT resolutions, feedback received from stakeholders, and readiness for adoption of the IAQG Artificial Intelligence policy. Challenges faced by Certification Bodies, including issues related to OASIS implementation, were reviewed, with emphasis on clarity, consistency, and coordinated action to support an effective and timely transition.

# **NABCB at NDE 2025- 35<sup>th</sup> ANNUAL CONFERENCE & EXHIBITION**

## **Plenary address by CEO, NABCB, highlighting the role of accreditation in strengthening NDE competence and global acceptance**

The National Accreditation Board for Certification Bodies (NABCB) participated at the 35th Annual Conference and Exhibition on Non-Destructive Evaluation (NDE 2025), organized by the Indian Society for Non-Destructive Testing (ISNT) held at Jio World Convention, Mumbai from 11-13 December 2025. The engagement focused on highlighting the critical role of accreditation in ensuring technical competence, consistency, and reliability in Non-Destructive Examination across high-risk and safety-critical sectors. NABCB emphasized how internationally aligned accreditation frameworks support regulators, industry, and conformity assessment bodies in building confidence in NDE outcomes.

**Moment of interaction and recognition at NDE 2025**

**Plenary address by CEO-NABCB at NDE 2025**

During the plenary session, the CEO, NABCB, highlighted how NABCB accreditation enables global acceptance of personnel certification and inspection outcomes through alignment with international standards and multilateral recognition arrangements. The address underscored the importance of standardized inspection practices, risk-based evaluation, and competence assurance in enhancing industrial safety, asset reliability, and regulatory compliance, reaffirming NABCB's commitment to supporting industry through credible and internationally aligned accreditation systems.

# NABCB ASSESSORS' TECHNICAL MEET

The NABCB Assessors' Technical Meet was held on 16–17 December 2025 in New Delhi, with participation from assessors associated with Certification Bodies (CBs), Inspection Bodies (IBs), and Validation & Verification Bodies (VVBs). The two-day programme was designed to strengthen technical competence, consistency, and ethical rigor in accreditation assessments, in line with evolving national and international accreditation requirements.

The deliberations covered updates from ISO, IAF, ILAC, and APAC, revisions and transition requirements of key international standards, updates to NABCB documents and applicable mandatory international requirements, and the Code of Ethics and professional obligations of NABCB assessors. Case studies on non-conformities, assessment management practices, and open discussions enabled structured technical exchange and experience sharing among assessors and NABCB officials, supporting continual improvement of NABCB accreditation processes under the aegis of the Quality Council of India (QCI).

Technical Assessor Meet presided over by NABCB team.

◦ **NABCB UPDATES | DEC 2025**

### Key Focus Areas and Outcomes

The meet provided a focused platform for detailed discussions across accreditation functions. Day 1 addressed assessors for Certification Bodies, covering updates on NABCB policies and procedures, revisions to international management system standards, transition policies, ethical requirements, and assessment management skills, along with case-based discussions on non-conformities. Day 2 focused on assessors for Inspection Bodies and Validation & Verification Bodies, including revisions to inspection and validation standards, accreditation criteria, use of accreditation symbols and international marks, emerging schemes, and regulatory developments.

Open deliberations across both days enabled assessors to share field experiences, highlight implementation challenges, and provide feedback for strengthening consistency and effectiveness in assessments. The meet reinforced NABCB's commitment to credibility, transparency, assessor competence, and alignment with global accreditation frameworks, while fostering a collaborative approach to continuous improvement.

# SCHEME IN SPOTLIGHT: KEY ACCREDITATION OPPORTUNITIES

## International Featured Standards (IFS)

International Featured Standards (IFS) develops globally recognised product safety and quality standards and programmes for organisations across the food and consumer goods supply chain. The IFS standards and programmes establish structured requirements for assessing suppliers of both private-label and branded products, ensuring the consistent delivery of safe, high-quality products in line with customer and regulatory specifications. IFS certification is operated under the Product Certification Body (PCB) framework in accordance with ISO/IEC 17065:2012, supporting credible, impartial, and internationally accepted product certification. Through this framework, IFS aims to enhance confidence among retailers and consumers that products available on retail shelves meet established safety and quality expectations.

Food processing operations demonstrating product safety and quality controls in line with International Featured Standards (IFS).

## **Asset Management System (AMS) | ISO 55001**

ISO 55001 is the internationally recognised management system standard for Asset Management Systems (AMS) and forms a key part of the ISO 55000 family of standards. It specifies the requirements for establishing, implementing, maintaining, and continually improving an effective asset management system, enabling organizations to manage physical, financial, human, and intangible assets in a structured and systematic manner.

The standard provides a framework to balance performance, risk, and cost across the asset lifecycle, supporting organizations in achieving strategic and operational objectives in a sustainable way. By adopting ISO 55001, organizations can optimize asset value, enhance decision-making, improve financial and operational performance, and demonstrate reliability and accountability to stakeholders.

ISO 55001 certification is delivered under the Management System certification framework in accordance with ISO/IEC 17021-1:2015, supporting credible and internationally accepted certification for organizations seeking robust asset management practices.

**Illustrative representation of asset performance analysis and decision-making aligned with ISO 55001 Asset Management System requirements.**

# THANK YOU

We sincerely appreciate your engagement and continued trust in the National Accreditation Board for Certification Bodies (NABCB).

Your feedback, insights, and partnership play a vital role in strengthening India's quality ecosystem and driving our shared mission of excellence in accreditation.

As we continue to evolve and expand our initiatives, we welcome your thoughts, suggestions, and contributions.

## Contribute to Our Next Edition

If you wish to share updates, experiences, or perspectives that could enrich our upcoming newsletters, we encourage you to write to us.

Your inputs are valued and may be featured in future releases to promote knowledge-sharing across the accreditation community. Thank you once again for your support and commitment to quality.
